FORMER BAY RESIDENT TRAVELS EASTERN END OF COLORFUL ORIENT

Visits Yokohama. After 19 Days' Trip Over Pacific—Greatest Silk Market of the World—Chinese Manner And Customs—Regard For Royalty—Honesty Is Paramount.

By PROF. T. L. TRAWICK.

Correspondence Sea Coast Echo.
In Two Installments. Installment Number 1.

SINCE July 1st, my wife and I have been travelling leisurely throughout the eastern end of the Orient, preparing to extend our trip around the world, which we hope to accomplish within two years, if these war clouds now hovering so lowly will have blown over.

Our first contact, of course, was at Yokohama, where we landed on July 13th, 1936, after a nineteen days trip from Los Angeles across the very peaceful Pacific.

Yokohama, one of the prettiest ports of the world, is a city of over a half million population. It is the greatest silk market of the world. Many large buildings in this city are the headquarters of the large shipping concerns which have their main offices here. The "bund" is a word all out in the Orient that corresponds with our word "levee" in New Orleans. This bund in Yokohama is a vast stretch of godowns (warehouses) in which goods are piled up for shipment, and transhipment to all parts of the world.

Our next contact was with Tokyo, now ranking as the second city of the world, with an area now larger than any other city, since it has consolidated with itself all outlying villages and towns. It is predicted that by the year 1940 it will extend its municipality so as to embrace Yokohama. Its present population now is far in excess of 6,000,000.

His Imperial Majesty Hirohito, rules the nation from a beauteous castle, situated exactly in the center of the city. The construction of this vast medieval castle, with its moat many miles long, and its far reaching and stupendous walls of masonry, put together without mortar, or the ringing of hammer, required more human element and structural material than did the colossal pyramid of Cheops. The vast stones in the walls, many single ones weighing over 100 tons, were hewn in granite quarries three hundred miles away, and were transported in primitive barges (sampan), each stone being marked, and no two stones alike, either in shape, size, or symmetry in the whole rampart which is fifty feet high.

The person of the Emperor is sacrosanct, he being virtually worshipped as a God. He is reputed to be the lineal descendant of Jimmu who came from Heaven to earth in 660 B. C., landing on a mountain top in western Japan, from which place he conquered all Japan.

COUNTY FARM BUREAU MEMBERS OF HANCOCK TO SPONSOR PROJECT

Of Rural Electrification—Supper Follows Business Session—Basket Picnic For July 16.

On Friday evening, June 25, at 7:30 P. M., a business meeting of the Farm Bureau officers, directors and committees was held at the home of Mr. George A. Spiers, president of the County Farm Bureau. Approximately fifteen Farm Bureau members and their wives attended the meeting. Mr. H. S. Johnson, secretary-treasurer State Farm Bureau, was present and discussed at length some of the main objectives that the State Organization has been pushing. It was decided upon by those present to have the Farm Bureau sponsor and work for the Rural Electrification Project that is now under way in Hancock County. Plans were discussed whereby Community Farm Bureau groups could be made more active thereby, bringing untold amounts of information which would result in direct benefit to every farmer in the county.

High Light of Evening.

The high light of the evening's program was a chicken-spaghetti supper given by Mr. and Mrs. George A. Spiers. Miss Hattie Bea Maples, assistant home demonstration agent, and Miss Agnes M. Bourgeois, secretary to the county agent, assisted in the preparation of this splendid supper.

Basket Picnic July 16.

The final discussion on the program was plans for holding an "Old Fashion Family Basket Picnic." It was decided that this picnic would be held on Thursday, July 16, at the Lee Town Community Fair Grounds, starting at 9 o'clock and lasting all day. The State Farm Bureau will furnish at least two good speakers for the occasion. Each family will be expected to bring a well filled basket and tables will be available on which food may be spread picnic style. The committee that was appointed to work out definite plans for the picnic are as follows: John S. Rester, Jesse A. Davis, Boaz Jones, Mrs. Howard Cole, Mrs. Herbert Brown. The committee decided to meet on Thursday night, July 1st, at the home of John S. Rester to complete the plans for the affair.

Watch The Echo your county paper, for further information about this big day, states Mr. Bozeman, county agent.

DEATH OF MRS. JAMES TACONI AT HOSPITAL WEDNESDAY NIGHT

She was a native of Pearlinton, Miss., and was a daughter of Francis Hill and Emily Dawsey. She was born February 14, 1872, and was 65 years, 4 months and 18 days old.

Funeral will take place this Friday morning at 10 o'clock, with interment at Cedar Rest cemetery.

CALVARY GROUP WRECKED

Figures at St. Mary Cemetery Wantonly Destroyed; First Thought Result of Lightning.

The crucifixion group, the cross, the crucified One, with the Virgin Mother on one side and Mary Magdalene, the penitent, on the other, that has stood atop of the receiving vault in the center location of St. Mary's cemetery, was destroyed beyond repair by what was thought to be the result of the lightning and thunder storm of Sunday morning.

The untiring work of county and city authorities reveals the well-grounded opinion that the wreck was the work of vandals and not an act of the elements.

Every appearance indicates that a heavy piece of timber was used as a buttling ram. Figures are of a kind of pewter composition, brittle, and easily broken when struck by force. Two statues standing besides the heavy wooden cross were destroyed and toppled over in the fall below. The Christ figure was butted in the face, side of body and right leg, however, main part of the figure hanging to its fastening.

Made of heavy timber material, the cross remains and was not injured. This Calvary group was placed by the good Rev. Father Henry LeDuc, pastor of the Church of Our Lady of the Gulf for well nigh fifty years and the group has been in position nearly that long, the pastor passing away during the nineties. The group was heroic size and made for a mark of reverence and gave an atmosphere to the hallowed burial grounds that meant so much for hope and consolation.

Being beyond repair it is not known what disposition will be made of the remaining part of the group. County authorities aided by city authorities, are leaving no stone unturned in the matter of ferreting out the guilty parties and it is confidently expected in time they will have landed the guilty parties in durance vile.

VICTIM OF ACCIDENT LOSES ARM

J. W. Cahall, of New Orleans, While Driving Auto To Bay City, Meets with Mishap.

J. W. Cahall, assistant superintendent of the New Orleans public grain elevator, was the victim of an auto mishap Saturday evening about 7:30 o'clock, three miles west of Bay St. Louis on the O. S. T., that cost him his left arm.

He was coming from New Orleans to Bay St. Louis, driving an auto, with an arm resting on the open window of the car. With him were two ladies and a gentleman, intending so it was stated, to return to their home city that night. Passing an automobile, a truck, operated by a local beer distributor, came in sight. The two vehicles, it is said, came in such close contact as to sideswipe one another with the result Mr. Cahall's arm was caught and completely mangled, from the wrist up to a point halfway between the elbow and shoulder. Both car and truck were damaged.

With part of his arm practically smashed to well nigh a pulp, the victim was hurriedly brought to the King's Daughters' Hospital, Bay St. Louis, where Dr. M. J. Wolfe, amputated the injured member at once in order to save his patient from bleeding to death.

At about 11 o'clock the ambulance of the Fahey Company conveyed the man to the charity hospital at New Orleans, accompanied by Dr. Wolfe and Junior Fahey who saw that the patient was made as comfortable as possible. Late reports are to the effect he is "doing nicely."

Cahall is well and widely known in New Orleans. He is married and, while his age was not given, he is apparently in his mid-thirties.

Officers from the sheriff's office were soon on the scene in official capacity.

Mr. Oren Lee of Kiln is a medical patient.

Mrs. Oswald Necaise of Kiln is a medical case.

Richard Dix's newest picture, "The Devil is Driving," first to be produced in the South, will receive its first showing at the Gulf Theater, Waveland, Sunday and Monday evenings.

This Southern premier showing in preview will be attended by a number of newspaper men from New Orleans and it will prove quite an event to show a big feature for the first time in a city of smaller size as Waveland.

The management of the Gulf Theater naturally takes great pride in this presentation and expects the public will greet both this picture feature and premier showing with generous patronage.

Rt. Rev. Bishop Gerow to Announce Appointments For Diocese Today.

Announcement of several appointments in the Diocese of Natchez will be made public in this week's issue of "Catholic Action," official organ of the Catholic church, published at New Orleans, and reaching Bay St. Louis Friday morning.

Among the vacancies to be filled is one at Biloxi, the pastor of the church passing away some months ago. It is reported the vacancy will be filled with priest from along the Coast. This be true, it will create another vacancy which the announcement will name successor. In all there are five major appointments.

The announcements of appointments will be published over Rt. Rev. Bishop Gerow's signature. All rumors have no foundation, it is said. However, it is expected the Rev. Wm. J. Leech will be transferred from Pass Christian to Biloxi.

St. Mary Cemetery Dedicated Ninety Years Ago—Record

An act of vandalism that destroyed the Calvary group at St. Mary's cemetery last Sunday morning, revives memoirs of the blessed burying ground.

The oldest inhabitants recall to mind the group is about 50 years old, placed there during the pastorate of the late Very Rev. Henry LeDuc, of the local Catholic parish.

St. Mary's Cemetery was dedicated December 22, 1873, according to church archives. There was then a center cross like the requirement of all Catholic cemeteries for dedication—one large center one and four smaller ones in each corner of the land allotted for the purpose.

The present cross is not the original one, but has stood the test of time will the Calvary figures. It is likely it will remain, since it was not damaged, and ruins of the figures cleared away.

FOR A HAPPY HOLIDAY.

THE "Glorious Fourth" can be just as glorious as we choose to make it. This year the long week-end created by the holiday will intensify the hazards which the Fourth always produces. The watchword should be, "Take care!"

Independence Day celebrates the independence of a nation. The coming week-end will demonstrate vividly the modern interdependence of people. Great streams of traffic pouring over the highways will show how essential are mutual regard and courtesy among drivers. Fireworks will demonstrate it too. A "firecracker thrown by another" is, according to the National Conservation Bureau, the greatest single cause of the tremendous number of fireworks accidents every Fourth of July. At the beaches and lakes, imprudent swimmers will again remind us that human life must be risked to save the life of a drowning person.

Reasonable care divides a happy holiday from the tragedies which mar it. Reasonable care will insure you, your family, and the other fellow against mishap. For instance:

If you drive—see that your car is in good mechanical condition. Check tires, lights, brakes, steering mechanism, windshield wiper, rear-view mirror, horn. Drive skillfully, at a reasonable speed. Observe the rules and courtesies of the road.

If you must use fireworks—give yourself plenty of space. Keep away from children and animals and buildings. Throw fireworks away from people and inflammable materials, not at them. Never hold an exploding firecracker, nor set them off under a bottle or can. Caution the smallest wound immediately—tetanus poisoning works fast and kills.

If you go swimming—swim in safe and protected places. Beware of strong tides and currents. Know your limits as a swimmer. Wait two hours after eating. Avoid shallow places.

THE FOURTH WEEK-END AND THE TOLL.

THE coming week-end will be a double holiday inasmuch the Fourth falls on Sunday and it is generally implied and agreed Monday will be declared the holiday in lieu of the Sabbath.

This is a signal of a vast outpouring of week-enders for the thousands that will journey out of the big city and other places—to spend a day in the country. Most of the number at the seashore. And the Gulf Coast, if weather be propitious, getting the bulk of quota of week-end vacationists.

One shudders at the possibility of fatalities. Venturing into waters beyond safety depths, automobile accidents and lack of precaution in handling firecrackers, firearms, etc.

One need not be a pessimist to visualize such possibilities. It is regrettable to state, that regardless of the precautionary measures advised and the exercise of careful heeding there will be a total of tragedies. The minimum number we hope. Better still—none.

PEOPLE WHO FAIL TO PAY.

THE Jacksonville, Fla., Journal has a story about a country editor who started up the road to return a rifle he had borrowed, and the first 10 persons whom he met hurried to settle back subscriptions. Whether or not this story was meant to be taken seriously, a large number of people who could pay their bills fail to do so, until they fear trouble is threatened.

There are some folks who never feel the obligation of a debt. They say they will pay it "sometime," but that sometime keeps being postponed indefinitely. Folks of this type are the plague of business who have ruined many honest persons.

People should take no satisfaction in having money in their possession that really belongs to someone else. Some consciences never get sufficient exercise so they make any trouble.

While money is necessary to pay one's debts good will is quite an important factor and goes a far way towards negotiating the discharge of an obligation incurred. The desire to pay and the will to do will not only well high perform miracles, so to speak, but will save one's respect and a good name is an asset that cannot be overestimated.

Everybody more or less are well known in a community who are the good and who are the bad pays. It does not take long to circulate and become established in the public eye. Pay bills.

Don't be a welcher.

WHEN TO LAY LOW.

THERE is something said in a Great Book about the difficulties which the rich will have in getting into a certain place.

Compared with the difficulties that Bay St. Louis fishermen have in getting accurate data as to the size and extent of their hauls the rich, it appears, have easy sailing ahead.

Now that the experts are on the trail of the finny tribe one may look for surprising and well-nigh unbelievable stories as the fishermen come home to rest. It is best, when they report to you, that you follow the example of Brother Rabbit and "lay low." Of course, they will believe that you believe what they say, but isn't this a small price to pay for friendship?

STATE MONEY FOR CITIES AND COUNTIES.

COUNTIES and municipalities that contribute to the sales tax collections that go to make for magnificent sums annually for the State of Mississippi are of the opinion a pro rata share of such monies should in turn come back to the communities from which the money collection originates.

Particularly since every municipality and county in Mississippi could appropriate such money to pay off bonded and other indebtedness; to help out counties back on cash basis as well as municipalities.

However, it does not appear the State is going to part with any such monies, even though it represents one huge jackpot wherein all have contributed to make it so.

Municipal and county officials from Adams, Jefferson and Wilkinson counties at a meeting at Natchez this week discussed tax problems and adopted resolutions for legislation advocated by the Mississippi Municipal Association and the Mississippi Association of Supervisors.

The resolutions, which were adopted unanimously, stated that a part of the state sales tax should be allocated to the municipalities and counties to be used to retire bonds; "that we are opposed to centralizing the government of municipalities and counties in Jackson; that the tax on gasoline and oil used by municipalities and counties is unfair, unjust and against the policy of the state and should be discontinued; that municipalities should be given the right to continue to fix water, gas and electric rates as they have done for the past 40 years and that boards of supervisors should have such rights outside of municipalities; that the road and bridge privilege tax law should be amended making tax payable in March of each year and requiring the car owner to present to the tax collector tax receipts covering all taxes on said car;" and that "all tax land now being sold to the state for taxes should be sold to the county wherein it is located, subject to all state and municipal taxes and special assessments."

C. D. Ross, secretary of the Mississippi Municipal Association, in addressing the meeting said that the Municipal Officers' and Supervisors' Associations have made as much progress as possible and "now must turn to the people for aid and assistance." He declared that it was the desire of the municipal and county officials to co-operate with the state and have the state co-operate with them.

"The state has co-operated with us in every way except money," the speaker said.

It is very probable the subject will be introduced to the next Legislature. In what form and with what success is hard to even venture an opinion unless it be one in the negative.

The quotation is correct that "The State has co-operated with us in every way except money."

Our people are heavily tax-burdened. While the State levy is back to the maximum no one seems to complain. The reproach is always aimed at the county or city.

RURAL ELECTRIFICATION FOR HANCOCK.

NEWS columns of The-Echo noted last week that \$87,000 had been allotted by the federal government to "electrify" 87 miles and to service 605 customers in Hancock and Pearl river counties combined.

Sponsor of this project is the Hancock Electric Power Association, Bay St. Louis, Miss.

Status of the project is well defined. The money from the government is known as a loan contract in the amount of \$87,000 and has already been executed. This contract, we are informed, binds the government to lend funds and the co-operation to build the lines.

Plans and specifications for line construction should be submitted to the REA in the very near future, and we are assured there will be no unnecessary delay. As soon as these have been approved, the project can be released for bids.

Adherence to the REA normal progress schedule will enable these Mississippi farmers to begin using electricity some time this fall.

The normal progress schedule for such projects has been established on the basis of average conditions.

It is, therefore, evident, farmers' and other rural residents of Hancock county subscribing for the service will be served by the fall. Electricity will be served at a low rate and to advantage and the home and farm will become a different place wherein to live. Lighting and current for power will be available in the remote regions.

PLAYING WITH FIREARMS.

CHILDREN playing with firearms tells the same old story nearly every day. Firearms in irresponsible hands and didn't know it was loaded take an annual toll that is appalling.

Here's a story from Hazlehurst, in our own State.

Charles Ponder, 13-year-old youth, was seriously injured by a shotgun wound inflicted while he was at play with a boy friend, Willie Foster, Jr., 11-years of age.

The boys had been playing with toy guns and the Ponder youth finally suggested they play with the shotgun which, when exploded, injured the boy in the side and stomach. He was rushed to a hospital where it is said his injury is critical.

Unthinking parents allow guns around the house promiscuously placed. The inevitable result follows in many instances. Too many graves filled with victims of untimely death.

KEEP ARMS AND HEADS WITHIN.

LOSS of an arm by a gentleman of New Orleans motoring from that city to Bay St. Louis Saturday night as the car neared the city is like all accidents, lamentable. And like most, unavoidable. The party was seated with his arm out and the wide trucks that monopolize most of the road space sideswiped the auto and the individual lost his arm by the amputation that was necessary to keep him from bleeding to death. Heads and arms must be kept within. This is an old injunction. To heed it means for safety.

A TRIO OF LETTERS TO THE EDITOR.

Letters to the editor of a newspaper are numerous and always interesting, treating on various subjects. Here are three. The first from a subscriber in Chicago, another from Baton Rouge, La., and the third from New Orleans.

The first carries this paragraph and followed the announcement in The Echo that Bay St. Louis barbers had advanced their prices. This ought to make both local barbers and resident patrons feel pretty good. We quote:

"I still read The Echo each week and I notice in the last issue that the price of haircuts has been advanced, but you shouldn't feel bad about this as shaves have been 25c and in some places 35c for some time and only recently haircuts have been advanced from 50 to 75c in the loop although some of the outlying shops have been charging 65 cents each for children right along. High prices for barber service is one of the penalties we have to pay for living in a place that isn't as nice to live in as Bay St. Louis, and some other Southern place I could mention."

From Baton Rouge, La.: "I don't see how I could do without The Echo. Each issue is like a visit to the Bay and a chat with old friends."

Another from New Orleans: "Herewith find check. Don't ever discontinue my subscription. Bay St. Louis without The Echo would simply not be Bay St. Louis."

"Follow The Sun" and the cast will be headed by Romney Brent and Paul Lukas.

Simone Simon's next picture will be "Suez." Miss Simon recently sailed for Europe on the Normandie.

Samuel Goldwyn has signed up Ann Graham who appears on Rudy Vallee's radio hour and she is to be in the cast of "Goldwyn Follies."

Walter Connolly has been signed up for the part of Gerald O'Hara, in "Gone With the Wind."

Lionel Barrymore will have the leading character role in "Wells Fargo." Joel McCrea, Frances Dee and Bob Burns have been previously announced as members of the cast.

Some of our Hollywood studios have players from all parts of the world. Errol Flynn hails from Belfast, Ireland; Madeline Carroll, from England; Charles Boyer, from Versailles, France; Mischa Auer, from St. Petersburg, Russia; Greta Garbo from Sweden; Marlene Dietrich, from Germany; Frances Lederer, from Czechoslovakia and Akin Tamiroff, from the same place.

Franchot Tone and his wife, Joan Crawford, are both music lovers. They have been married three years.

Grace Moore's new trailer has all the conveniences of an up-to-date New York Apartment.

Bill Boyd and his bride, Grace Bradley, recently lost a car by parking it on the beach while they wandered off for a stroll. When they returned the car had been washed out to sea and they had a six mile stroll back to the hotel.

Sonja Henie recently received a bright red suede bag made in the shape of a heart from a fan in the Austrian Tyrol.

Virginia Bruce and Loretta Young will both be in "Wife, Doctor and Nurse." Barbara Stanwyck was to have had a role in this picture but as she was busy on the lot making "Stella Dallas," the part was assigned to Miss Bruce.

Wayne Morris who played the title role in "Kid Galahad," was just an unknown around the Warner lot. After reading the script he decided that he suited the part of the kid perfectly, so every time he met an executive he struck a pose and said "I'm Kid Galahad." Finally they noticed him and after a test he was given the part. He is now considered very promising star material.

RESIGNS.

Robert Lincoln O'Brien, Boston Republican, has resigned from the Tariff Commission. While appointed by a Republican president, the Bostonian continued to act as chairman and was reappointed last June to a six-year term. He advocated the reciprocal trade treaty program and was something of a liberal in his tariff views.

GOOD NIGHT MY LITTLE ONE.

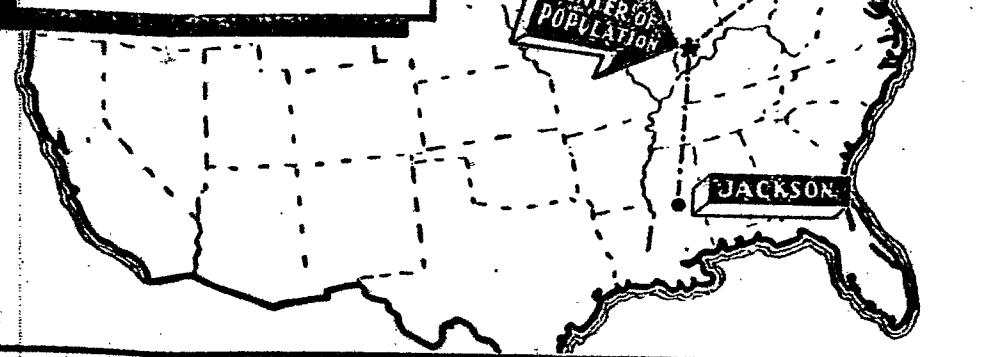

Goodnight my little one, good night, Until the break of day; Your dreams, may all of them be bright.

While angels near you sway, Mother will worry 'till the morn, Lest spirits steal you dear; My heart is torn with fears forlorn, Until your voice I hear. How oft I wake in the night, To feel your body soft; Then on you flit my fingers light, With many prayers a loft. Ah well, God's loaned you unto me, His child by right divine, Yet, selfish for your love I'll be, Calling you ever mine. O babe, a breath twist God and me, Is all that hold you fast; Then let me long your presence see, 'Til homeward bound at last.

Mississippi in ADVERTISING and PUBLICITY

For the first time Mississippi is telling the world of agricultural, recreational and industrial resources which if effectively capitalized will win for her a place of leadership among the states of the Union. For the first time she is taking her light from under the bushel, displaying proudly the resources and God-given advantages that will make her great.

Her Advertising Commission, charged with the duty of giving wings to her message, presents below a condensed summary of its program, that Mississippians may know more fully of its activities and plans. Upon request the Commission will gladly furnish more comprehensive details than it is possible to present in this general outline.

Program Within State

It is axiomatic that no salesman can successfully sell a product he does not believe in. Nor can any people sell to the outside world a state on which they themselves are not thoroughly sold. To be thoroughly sold on Mississippi, the Commission is convinced that Mississippians need only to be adequately informed concerning it. Utilizing \$125,000 worth of newspaper space contributed without charge by patriotic Mississippi editors vitally interested in state development, the Commission is endeavoring to paint for its own people a true picture of the remarkable commonwealth in which they live. Toward that goal it has built the first section of its program:

1. MONTHLY DISPLAYS

A monthly series in all Mississippi newspapers, each display presenting on one page in comprehensive but compact form one subject concerning the state. Thus far have appeared Historical Mississippi, Recreational Mississippi, and Mississippi in Literature and Legend. Six other releases have been definitely scheduled, all being run in space donated by Mississippi editors. Monthly circulation: 240,000.

2. WEEKLY CARTOONS

A strictly Mississippi believe-it-or-not type of feature being run once each week in all Mississippi newspapers. Each cartoon presents three illustrated statements of unusual interest under the caption "It's a Fact." In response to public demand the Commission expects to reproduce the entire series in booklet form. Monthly circulation: 1,040,000.

3. WEEKLY COLUMN

A feature column to act as a catch-all for individual bits of information not adaptable to display or cartoon use. Appears in approximately two-thirds of state newspapers as "Scribbles." Monthly circulation (estimated): 665,000.

4. SPECIAL RELEASES

A special and occasional service designed to inform Mississippians of special progress and developments of statewide interest through news features and photographs.

5. STATE-WIDE PROMOTIONS

Two of these are included in the state schedule. One, the Thanksgiving Festival, has already been held. Programs reviewing the progress of the state in 1936 were conducted by 1,141 Mississippi schools, churches, and clubs. Fifty-eight members of a voluntary "Speakers Bureau" were active; Mississippi newspapers contributed \$6,340 worth of promotional space; and seven radio stations contributed time. The second promotion will be a "Mississippi Products Week" next fall.

Summary and Cost

Through items No. 1, 2 and 3 (above) the Commission will reach a total audience during its 15-month program of 29,175,000. This does not include items 4 and 5, which cannot be estimated accurately in advance. Total cost, including plates, art work, research, materials and administration, for 15 months: \$28,000, not one dollar of which goes to any Mississippi newspaper.

Program Outside State

No matter how sold her own people may become, Mississippi cannot lift herself entirely by her own bootstraps. She must therefore of necessity present her convincing story to the outside world. She must remind executives that she is America's most promising industrial frontier; she must tell tourists the story of her new highways and inviting resorts; she must present to progressive farmers the appeal of her new developments in diversified agricultural effort. She must, in short, become an aggressive Mississippi. To this end the Commission has planned the second section of its program:

1. MAGAZINE ADVERTISING

A seven month display advertising schedule in national magazines and business publications, presenting the natural resources and advantages of the state and soliciting direct inquiries. Publications selected are Time, Fortune, Nation's Business, Business Week, Review of Reviews, National Geographic, and Manufacturers Record. Schedule opened April 24. Monthly coverage: 2,419,626.

2. RESERVE SCHEDULE

A second schedule in national media during the final months of the year. For this purpose the Commission has set aside a special fund which may not be expended before October 1. Selection of media and the definite plan of the schedule will be decided upon in late summer.

3. DIRECT MAIL

Ten major pieces of literature are planned by the Commission during the year. They deal in large part with the same subjects that make up Item 1 under the "Program Inside State," but treat each subject more completely. Together or in combination they are designed to answer any inquiry that may come from outside the state in response to national advertising. Four of the ten thus far have been produced.

4. PUBLICITY PROMOTION

A comprehensive editorial service to furnish favorable Mississippi manuscripts and photographs to national magazines, trade publications, metropolitan newspapers, rotogravure sections and press syndicates. Some of the nation's outstanding editors have welcomed the creation of this department, and through their columns have used its materials in \$175,503.03 worth of space since September 1, 1936. Coverage thus obtained, while difficult to estimate accurately, runs well into the millions of readers.

5. GENERAL ACTIVITIES

The Advertising Commission considers it a part of its responsibility to enlist the cooperation of others in its program. At its suggestion one full page in every telephone directory in the state for a period of six months has been made available for advertising. Funds have likewise been made available for publication of a 600-page book "Mississippi, in Word and Picture"; and automobile license tags for 1938 will doubtless become small advertisements of the state's industrial progress. These are three samples from a rather wide field of special activities, all handled without expense to the state or use of funds appropriated for the advertising program.

Summary and Cost

The Commission believes that through the above plan it will reach during the year a sizeable majority of the reading public of the nation. Inquiries for the past two months have come from every state in the U. S. and five foreign countries. Total cost of this section, including advertising space, art, plates, photographs, manuscripts, literature, and administration: \$72,000.

Medical Director Warns Fourth of July Swimmers

Predicting that there will probably be more swimmers in the water on the Fourth of July than on any other day of the summer, Dr. Robert A. Fraser, Chief Medical Director of the New York Life Insurance Company, offers three simple rules which should go far in preventing the large number of swimming accidents which occur every year during the summer months.

Dr. Fraser has been making a special study of hot weather accidents and "disabilities." "If everyone," he says, "will remember the following three rules many lives will be spared and much sorrow avoided: First, never go swimming alone; second, keep out of the water for at least one full hour after a meal; third, never dive into water until you are sure of its depth."

"They are just 'common sense rules,'" Dr. Fraser said, "yet failure to observe them probably accounted for the great majority of the 5,000 swimming fatalities estimated by the National Safety Council for the year 1935, the latest figures that are available."

"Many people are drowned every year because they insist on going swimming alone and are powerless to help themselves when seized with a cramp of faced with some other sudden emergency."

"As for keeping out of the water directly after eating, a life guard at one of the large semi-public swimming pools here in the East tells me that he and the other guards know that their busy period will occur in the hour between two and three o'clock every day, when diners rush from the table into the water and are seized with cramps. More people get into difficulty during that hour than at any other time during the day."

"And finally, the dangers of diving into water without first knowing the depth are obvious to every one."

"MAYTIME" ANOTHER TRIUMPH FOR TEAM OF MacDONALD AND EDDY

John Barrymore Scores with Singing Team — Music Ranges from Operatic Arias to Simple Folk Songs.

Hollywood's first spectacular musical picture of the new year, Metro-Goldwyn-Mayer's "Maytime," will be at the A. & G. Theater, Sunday and Monday.

With the glamorous Jeanette MacDonald and the picturesque Nelson Eddy reunited in the starring roles, this extravagant adaptation of the successful stage musical is far more beautiful than the original. That is to be expected, of course, owing to the greater resources of the screen.

Miss MacDonald and Eddy surpass their starring performances in those brilliant pictures, "Naughty Marietta," and "Rose Marie." John Barrymore is excellent as the temperamental and tragic impresario and, Lynne Carver, a lovely stranger to the screen from Kentucky, appears with Tom Brown to provide the juvenile romance.

"Maytime" is a gorgeous spectacle to view and a beautiful treat to hear. Hunt Stromberg and Robert Z. Leonard, who respectively produced and directed "The Great Ziegfeld" last year, occupied the same positions in the production of the new picture.

Noel Langley adapted the story from the stage play by Rida Johnson Young. Sigmund Romberg, who wrote the original Broadway score, composed the songs for "Maytime" with Herbert Stothart. The latter has composed the first screen opera, "Carmen," which provides a beautiful sequence in the picture.

Miss MacDonald and Eddy rise to their full stature in the realms of stardom, adding to the laurels they won in earlier films. Together they sang the original stage song, "Will You Remember?" so effectively that those who hear it will be unlikely to forget it. Miss MacDonald also sings two complete operatic arias and parts of others. Eddy sings three first-rate novelty songs, "Students' Drinking Song," "Vive L'Opera" and "Virginia Ham and Eggs." Together the stars give a touching rendition of the folksong, "Carry Me Back to Old Virginia."

"Maytime" is a brilliant picture. It is an auspicious beginning for the new year's musicals and sets a pace that even Hollywood will find it difficult to follow.

JUDGE FREEMAN JONES OF LOGTOWN DIES AT PICAYUNE ON VISIT

Eighty-Four-Year-Old J. P. Of Hancock County Stricken—Buried at Logtown.

(Picayune Item) "Uncle" Freeman Jones, 84 years of age of Logtown, Miss., died Saturday morning while visiting at the home of his daughter, Mrs. Hester Marquez, in Picayune. Funeral services were conducted at the old home of the deceased by the Rev. R. K. Corder, pastor of the First Baptist Church, Picayune. Interment was made in the Logtown cemetery by the Masons an order of which Mr. Jones had been a member many years.

Mr. Jones was one the early settlers of Logtown, where he moved in 1873. Logtown was at that time a thriving peaceful sawmill town, built up by the activities of the Westons. Mr. Jones took an active part in the official, civic and religious developments of the town. He was elected Justice of the Peace 30 years ago and continued in office until his death. Due to his advanced age, Uncle Freeman has been in ill health for several years. Since the death of his wife, he has been living with members of his family in the old home in Logtown. On Wednesday, June 16, he was brought for a visit to the home of his daughter, Mrs. Marquez, here, and it was while she was preparing his breakfast Saturday morning about 5 o'clock, he was stricken and died immediately. In 1877, he was married to Miss Louisa Lee, who preceded him in death on September 1, 1935.

Survivors are six daughters: Mrs. Charles Marquez, Picayune; Mrs. J. B. Hoyer, Gulfport; Mrs. Matlie Baker, Picayune; Miss Ada Jones, Logtown; Miss Virginia Jones, Knoxville, Tenn.; and Mrs. Ruth Blocker, Logtown. WITH THE FISHERMEN.

By Cantcha Ketchum.

JULY 4TH fishing parties will be numerous this week end according to all indications. Good weather is expected and preparations are being made to accommodate the thousands of out-of-town visitors.

Another out-door supper-fishing party was held last Friday evening at Joe Jones' place at Gainsville on Pearl river. Among those in the party were Henry Osioinach, C. C. McDonald, George Seuzeneau, Bob Mitchell, Bob Genin, Bill Filligim, Roy Cagle, Oscar Bragg, Albert Hitt and L. S. Elliott. Supper was prepared and served on the grounds after fishing in the afternoon.

Enjoying one of those deep water trips to the islands out from Gulfport included Father A. J. Gmelch, Father Wm. Leech of Pass Christian, Father Murray of Oklahoma, Father Spengler of Gulfport and Mr. Brown and son of Pass Christian. The party caught bonita, mackerel and lemon fish. A boat was secured at Gulfport and strolling was the main method of fishing.

Guy Hopkins of Waveland and party enjoyed several days' fishing at Chanderler Island last week-end. His daughter, Mrs. Killian and Mrs. Wm. Scoggins were with him.

Fishing on the Waveland reefs has been good according to Mr. Phillips and Tom Nease, who report catching 25 fine speckles Wednesday.

Clem Dufour and niece Elaine Lamar caught some nice speckles Wednesday near Waveland.

Henry Osioinach and J. Phillibert, fishing late Wednesday afternoon at Lime Kiln Bayou caught some peach on dead bait.

Joe Jones at Gainsville reports several parties from New Orleans and Picayune while fishing in that section have made nice catches of perch and green trout. This section is the ideal fly and casting place.

Dr. Lafferty of Bogalusa is a frequent visitor to the Pearl river vicinity and spends many week ends fishing out from Gainsville.

Plenty of green trout are being caught on live shrimp in the Bayou DeLisle section according to reports from Todd's camp at DeLisle.

Bob Genin and Albert Jordy the latter from Richmond, Va., were fishing in Pearl river Wednesday afternoon. They report catching a nice string.

Several parties to Bayou Boland over the week end tell of large catches of speckles. Bish Clark and party caught 75 Tuesday.
